Lewisville, TX 75067

Experience the Difference

The Philosophy of Academy of Learning for Life (ALL)...

...adheres to the belief that after high school each individual, regardless of their disability, is entitled to continue their education and retain the support necessary to maximize his/her potential. The **ALL** staff is fully committed to providing a climate for learning and to continuing each student's academic progress and social development.

Our Mission Statement

It is our mission at ALL to prepare each student to be a contributing member of society and to participate successfully in their local, as well as the global, community. We guide our students to achieve academic skills while at the same time facilitating their social and emotional development, with the goal of becoming lifelong learners.

"Even with his disabilities, my son thrives in this academic environment. He is learning so much." Parent of a Student

Disabilities

Many of our students have disabilities that include Autism, Cerebral Palsy, Down Syndrome, Dystonia, Vision Impairment, Mental Retardation, Quadriplegia/Athogryphosis, and Speech Difficulties.

Instructors

ALL instructors are certified teachers with many years of experience. They have a deep understanding of the curriculum, a love for their profession, and a passion for students with disabilities.

Cheryl Yaeger, Director of ALL

"Our focus is on preparing the students to make the transition from codependency to independent living, using critical academic and life-skills. Each of our curriculum modules is designed to prepare students with skills to enhance their lives."
